

## CYBER BATTLE EVENT ON 29 OCTOBER 2022 IN TARTU, ESTONIA INVITATION TO EDUCATORS

Educators - IT teachers, representatives of educational organizations, youth specialists etc. and respective officials dealing with IT/Cyber education from all Nordic and Baltic countries are WELCOMED to visit a **roundtable at Cyber Battle on 29 October 2022 in Tartu, Estonia.**

Alongside the Nordic and Baltic youth competition, a **networking roundtable for IT educators from Nordic and Baltic countries** will take place. The aim is to bring together IT/cyber educators to:

- exchange best practices on IT and cyber education in the Nordic and Baltic countries;
- get an overview of the cyber teaching methods and situation in the region;
- network and build up connections among the schools and educational organizations in the Nordic-Baltic region.

Please register your participation by **21 June** at [www.ctftech.com](http://www.ctftech.com)

Once You'll get teams from your school to participate at the bootcamp and battle, you are welcome to apply to cover your travelling costs from the organizers.

Cyber Battle is a series of cyber hacking events aimed at young people aged 15-24. The main goal is to make young people more cyber-savvy by acquiring knowledge in the field through practical cyber courses. The goal is to introduce work in the cyber world and the relevant skills and knowledge required and bring together youth and IT educators from all Baltic and Nordic countries.
